PROFILE

Senior Unity Developer with 5+ years of production experience across AA, midcore, casual and mobile RPG projects. I turn complex Unity systems into measurable improvements in loading, memory, frame time and build delivery.

SELECTED IMPACT

30s → 18s

HUB LOAD

47s → 23s

MISSION LOAD

10-12 → 6-8 GB

MISSION RAM

23 GB → 12 GB

BUILD SIZE

EXPERIENCE

Senior Unity Developer / Build Automation | Rhinotales

Feb 2025 - Present

Critical Shift - AA tactical RPG for Windows PC, Steam Deck and Xbox

- **Production ownership:** Gameplay, UI/meta systems, performance, URP features and build delivery.
- **Loading:** Reworked Addressables packaging and deferred world spawning; hub 30s → 18s, missions 47s → 23s.
- **Memory:** Removed duplicated content and retention chains; menu 3-4 GB → ~1.8 GB, hub 7-8 GB → 4-4.5 GB, missions 10-12 GB → 6-8 GB.
- **Frame time:** Stabilized ability simulation and enemy turns by removing redundant calculations and allocation-heavy temporary data.
- **Build & delivery:** Cut build size 23 GB → 12 GB and automated QA delivery through TeamCity, Cloudflare R2, n8n and Discord.

Unity Developer | GameFlinker / FlinkStudio

Jan 2021 - Feb 2025

Midcore and casual mobile production

- **Gameplay & UI:** Built reusable gameplay architecture, MVP-based interfaces and async state-machine flows.
- **Online features:** Delivered chat, friends, groups, cloud saves, leaderboards and quests through REST API and SignalR.
- **Production integrations:** Firebase, Adjust, Facebook SDK, Unity Analytics, IAP and Localization.

SELECTED PRODUCTION WORK

Critical Shift | AA tactical RPG | Windows PC, Steam Deck, Xbox | gameplay, performance, URP, Addressables and build automation.

Forge of Heroes | Midcore mobile RPG | gameplay architecture, MVP UI, social features, REST API, SignalR and Firebase.

Additional shipped titles | Mahjong Solitaire Classic, BusyBrain and Store Mania | gameplay, UI, SDK integrations and release support.

CORE TOOLKIT

ARCHITECTURE & GAMEPLAY

C#, .NET, ECS, Entitas, MVP/MVVM, Zenject, VContainer, state machines

PERFORMANCE

Unity Profiler, Memory Profiler, snapshots, Frame Debugger, CPU/GPU/RAM analysis

CONTENT & UI

uGUI, UI Toolkit, Addressables, Asset Bundles, URP, Spine, Animancer, DOTween

SERVICES & DELIVERY

REST, SignalR, Firebase, SDK integrations, TeamCity, R2, n8n, AltTester

EDUCATION & LANGUAGES

Volzhsky Polytechnic Technical College | Mathematical Support and Administration of Information Systems, 2020-2024

KSyndicate - Unity Development | ECS and architecture specialization, 2024-2025

Languages: English B2 | Russian native | Azerbaijani native / fluent
